# Real estate purchase flowchart

Consultation on purchase

We will take the time to advise you on narrowing down your purchase criteria, key points for selecting real estate, and financial planning.

Introduction of real estate information

Using our extensive network, our sales staff will introduce you to real estate properties that match your desired conditions from a wealth of information.

Free membership service (My Livable) We use AI technology to introduce your personalized property recommendations via e-mail.

Guidance to the site

Please contact us if you find a property you are interested in and we will guide you to the site immediately.

Application for purchase

We will again discuss and confirm your financial plan. After careful consideration, you will be asked to fill out a "Real Estate Purchase Application" once you have decided on the property you wish to purchase. If necessary, we can adjust the terms of the agreement or request a preliminary review of the housing loan.

Proposals for survey, assessment, and sales methods for property for sale

By accurately grasping the characteristics of the property, we will propose an appraisal price and sales method.

## Preliminary survey of property for sale

We will conduct a preliminary survey of matters affecting the price of real estate from the perspective of property sales and purchases.

### chapter1 Significance of the survey

Since multiple factors, such as the property itself and its surrounding environment, can affect the price of land and buildings, we conduct surveys from various angles and assess the price of real estate for sale based on the information we obtain from these surveys. In addition, in order to avoid problems in real estate for sale, investigating important matters that must be explained to the buyer is also an important process.

### chapter2 Survey details

Items	Survey locations	Details		
Survey of rights Legal Affairs I		Ownership rights, mortgages*1, leases, surface rights, easements, etc.		
Survey of legal restrictions  City Hall		Surveys related to the Building Standards Act, City Planning Act, etc. (building permits, roads, urban planning, etc.)		
7 1. 1		Water and sewage piping on the road in front of and on the property		
Immediately available facilities	Gas companies	Frontal road piping for gas		
	Electric power companies	Electric power suppliers		
[For condominiums] Survey of management status  Management companies/ Management associations		Management type, management method, changes in management fees and reserve for repairs, building repairs, management regulations, detailed rules for use, etc.  *The seller's cooperation is required with regard to the survey. Power of attorney and other formalities may be required for our survey.		

\*1 If a mortgage is set up, we will check the balance of the loan and confirm whether the loan can be repaid or not.

### We will search for properties for sale

Land: Shape, difference in elevation, presence of boundary markers\*2, presence of boundary crossings, etc. Building: Structure, age, layout, facilities, sunlight, view, usage, etc.

%2 Confirmation of presence of boundary markers

We will confirm the presence of boundary markers in order to ascertain the scope of the subject property and the relationship of rights. If boundary markers cannot be found, they must be in place by the time of handing over the property.

### [Available services]

Provisional surveying service (excluding the Sapporo area)

### ■ We will look into case studies of the surrounding area

Transaction examples: Prices of real estate transactions that took place during a similar time period Sales examples: Prices of properties that are currently for sale Public prices: Official land prices, standard land prices, roadside land prices

### ■ We will check the surrounding environment and facilities

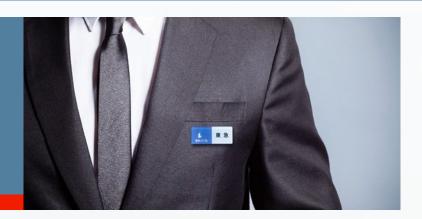

Transportation: Distance to the nearest train station, convenience of buses, distance to commercial and educational facilities, etc. Environment: Road maintenance status (sidewalks, street lights, street trees, etc.), presence/absence of noise, vibration, and odor, presence/absence of facilities that affect the surrounding environment (hospitals, parks, etc.)

### Conclusion of a mediation agreement

Information on the procedures to initiate the sale of your property.

# About mediation agreements

When you request the sale of a property, the execution of a mediation agreement is required.

### chapter1

### Types of mediation agreements

There are three types of mediation agreements: "Exclusive full-time mediation agreements," "full-time mediation agreements" and "general mediation agreements".

	Obligation to register with the "designated distribution network system"	Obligation to report sales status (sales activity report*)	Agreements with multiple vendors	Transactions with counterparties discovered by the seller themselves
Exclusive full-time mediation agreement	Within 5 business days	At least once a week	×	×
full-time mediation agreement	Within 7 business days	At least once every two weeks	×	0
general mediation agreement	X No registration obligation	No reporting obligation*	0	0

\*\*Sales activity report...We will report the content of implemented sales activities, the number of accesses to our homepage, the status of inquiries from buyers, etc., in writing or by e-mail. In addition, our company also conducts periodical contact in a general mediation agreement.

### We recommend the conclusion of an exclusive full-time/full-time mediation agreement for the following reasons.

- Our brokerage services are available to ensure high, fast, and reliable sales.
- •We can reduce the burden on the seller because we can manage information centrally.
- Although there is only one contact company for the seller, it is possible to introduce the property widely through other real estate companies through registration with the Minister of Land, Infrastructure, Transport and Tourism's designated distribution network system (REINS).
- At Tokyu Livable, we do not "enclose" properties. We actively and widely disclose information not only to our customers, but also to other real estate companies, in order to find buyers.

### chapter2

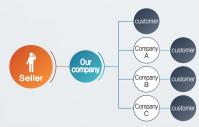

### Difference between an exclusive full-time/ full-time mediation agreement and a general mediation agreement

### Exclusive full-time/full-time mediation agreement

- •Since we are the only point of contact for the seller, information management and sales activities can be conducted smoothly.
- ●The "Livable Anshin Brokerage Warranty" and other brokerage services are available (subject to terms and conditions).

### General mediation

- ●The seller can directly request multiple companies to conduct sales activities.
- The seller will be responsible for all contact with the contact companies. (Coordination of viewing times, etc.)

### chapter3 About the "building condition inspection"

When concluding a mediation agreement, we will confirm whether or not you wish to have a "building condition inspection" as stipulated by the Ministry of Land, Infrastructure, Transport and Tourism, and if you wish to have one, we will introduce you to an inspection company. In addition, we offer our unique building inspection and warranty service "Livable Anshin Brokerage Warranty" to customers who conclude exclusive full-time/full-time mediation agreements. (There are various conditions.)

We will guide you through the taxation issues that arise when purchasing or selling real estate.

# Taxation of non-residents

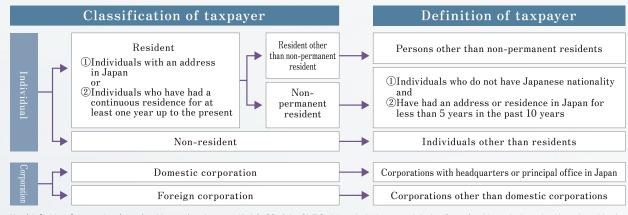

Cases in which withholding tax is obligatory we will provide an easy-to-understand explanation. Specific payment amounts and payment dates please be sure to grasp this information in advance.

### chapter1

### Classification of taxpayer

Taxation on the acquisition, transfer, or lease of real estate by Japanese nationals working abroad, foreign nationals (non-residents), or foreign corporations whose base of residence is overseas differs from those of persons whose base of residence is in Japan (residents) or domestic corporations in terms of the scope of taxation.

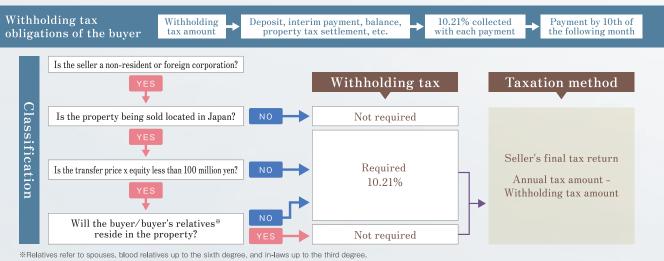

Note) 1. "Address" means the place of residence of each person (Article 22 of the Civil Code), and whether or not it is the place of residence is determined based on objective facts. 2. An individual who becomes domiciled in Japan is presumed to be a domicile holder (resident) if, for example, he/she has an occupation that normally requires him/her to a local continuously in Japan for at least one year. In addition, an individual who has become domiciled abroad is presumed to be a non-resident if, for example, he or she has an occupation that normally requires continuous residence abroad for at least one year. 3. A place of residence is a place, other than a domicile, where a person resides continuously for a considerable period of time, but not to the extent that it is their place of residence.

#### chapter2

### Withholding taxes on sales proceeds, etc. when the seller is a non-resident, etc.

If the seller of the property is a non-resident or foreign corporation, in principle, the buyer must deduct (withhold) 10.21% of the payment amount each time the price is paid, and pay the amount to the tax office by the 10th of the following month. However, withholding tax is not required if certain requirements are met.
